#### 5) Fair-Use limits (Template Builder & E-Sign Personal)

To maintain quality for all users, Pro is intended for **normal human, day-to-day business use**. The following soft caps apply:

- **Pro (Monthly):** up to **100 document generations / month** and **100 personal sign actions / month**; fair bandwidth for downloads/uploads tied to those actions.
- **Pro (Annual):** *unlimited within reason* with soft caps  $\approx$  **1,200 generations / year** and **1,200 personal sign actions / year**, with seasonal buffer.
- **Concurrency/Rate:** up to **3** simultaneous generations; up to **30** personal sign actions **per hour**.
- **File size:** uploads  $\leq$  **25 MB** per file (if applicable).

“Unlimited” means no preset hard cap for normal human use by a single account holder; it **does not** permit automation, batch pipelines, or reselling the raw service.

**Unfair:** sending to others for signature; credential sharing; automated/scripted high-volume generation or signing; reselling service access; illegal/infringing content; bypassing limits or security controls.

- **Template Builder outputs** are drafts/final documents you must evaluate for fitness and compliance.
